SUMMARY:

Data Analyst with 2+ years of experience in Python, SQL, Machine Learning, and data visualization. Skilled in analyzing datasets, developing predictive models, and delivering business insights through data-driven solutions. Strong analytical, communication, and problem-solving abilities.

EDUCATION: MSC – Data Science & Analytics

EXPERIENCE: Data Analyst | DataVision | Chennai, India | Jan 2023 - Present

- * Analyzed business data using Python, SQL, and Excel to identify trends and improve decision-making.
- * Built machine learning models for predictive analytics and reporting.
- * Created interactive dashboards and collaborated with stakeholders to deliver actionable insights.

TECHNICAL SKILLS:

Programming Languages: Python, SQL

Data Analysis: Machine Learning, Data Analysis, Statistics

Tools: Power BI, Excel, Git, Jupyter Notebook

Databases: MySQL

PROJECTS:

Sales Forecasting System:

- * Developed a machine learning model using Python to predict monthly sales.
- * Performed data cleaning, feature engineering, and model evaluation.
- * Improved forecasting accuracy through data-driven analysis.

Customer Churn Prediction:

- * Built a predictive model to identify customers likely to discontinue services.

- * Conducted exploratory data analysis and data preprocessing.
- * Generated insights to support customer retention strategies.

CERTIFICATIONS:

- * Google Data Analytics Professional Certificate
- * Microsoft Power BI Data Analyst Associate

SOFT SKILLS:

- *Problem Solving
- *Communication
- *Team Work
- *Analytical Thinking

LANGUAGES:

English, Hindi
